

ENT Stubby

An ENT Stubby is used to create conduit stubdowns in concrete slabs.

- Gives protection to the ENT conduit from potential damage during the removal of wood forms
- Made in USA

**CANTEX ENT Line
(Electrical Nonmetallic Tubing)**

EZ Flex® Flexible ENT Electrical Nonmetallic Tubing is a high performance low cost alternative to electrical metallic tubing. EZ FLEX costs less than metal tubing, and its installation time is dramatically reduced. Since the corrugated design allows bending by hand, it eliminates the need for bending equipment and/or special tools.

CANTEX offers a complete line of ENT tubing, fittings and accessories to meet all of your electrical ENT needs. Since our ENT fittings & accessories connect seamlessly with our ENT tubing, they make it easy to convert entire electrical infrastructures through a single source—CANTEX.
