

## Conduit Offset

Conduit offset is a plain end section of conduit formed to go around obstacles or compensate for centerline differences in two conduit runs.

- For use with Schedule 40 & 80 applications
- Two plain end spigot solvent weld ends
- Made from ETL listed rigid PVC conduit
- Made in USA

| Part Number | Trade Size | Carton Qty. | "L"   | "ID" | "DIA" |
|-------------|------------|-------------|-------|------|-------|
| 5133188     | 1/2        | 25          | 6.375 | .625 | .875  |
| 5133189     | 3/4        | 25          | 6.375 | .750 | 1.063 |

Dimensions are nominal

## SINGLE SOURCE FOR PVC ELECTRICAL

CANTEX offers an all-inclusive line of Schedule 40 & Schedule 80 PVC electrical fittings and accessories. With several decades of experience manufacturing PVC fittings and accessories, you can trust CANTEX to provide quality products.

All of our PVC fittings are easy-to-install and offer non-conductivity, high impact, tensile strength, industry certifications, and resistance to a wide range of chemicals, acids, and salt. Our schedule 40 & 80 fittings and accessories connect seamlessly with other standard schedule 40 & 80 products making it easy to convert entire electrical infrastructures to PVC. See our full line of PVC electrical products at [www.cantexinc.com](http://www.cantexinc.com).
