

Enviro-Flex® Kits contain 6' of Liquidtight tubing, two straight connectors and one 90° connector. Enviro-Flex kits are good for all outdoor applications where waterproof non-corrosive conduit is needed to protect electrical wiring.

Part No.	Size	Carton Qty.
5441051	1/2	4
5441052	3/4	4

- Easy to install without specialty tools
- For control & motor applications, machinery tools, console wire, transformer connections, and air conditioning & heating systems
- Waterproof, non-conductive, self-extinguishing, & crush resistant
- Acid, oil, and corrosion resistant
- Made in USA

The Enviro-Flex® Conduit and Fittings Line

The Enviro-Flex® Liquidtight Nonmetallic Flexible Conduit & Fittings Line

Enviro-Flex® Kits are part of the the CANTEX Enviro-Flex line. Our Enviro-Flex products give complete environmental protection for exposed cable installations. Enviro-Flex products are ideal for use with control and motor applications, machinery tools, moving machinery, console wire, transformer connections, outdoor lighting, air conditioning systems, heating systems and computer power distribution. Our Enviro-Flex line includes flexible conduit, connector fittings and flexible elbows.

Enviro-Flex offers the following advantages compared to metal conduit:

• INSTALLATION

1. Enviro-Flex costs less to install.
2. It is easy to cut with no jagged edges.
3. It is less than half the weight of metal and can utilize all existing liquid tight fittings.

• FLEXIBILITY

1. Enviro-Flex is more flexible.
2. Its smooth inner bore makes pulling wires easier than ever.

• SERVICE ENVIRONMENT

1. Enviro-Flex is waterproof, acid, oil, alkaline and corrosion resistant.
2. It is non-conductive, self-extinguishing and extremely resistant to crush, abrasion and strain.
3. UL listed for constant use at maximum 60°C (140°F) and for sunlight resistance.
